

About the Service

Cleaning Materials

We use your cleaning materials to keep your house to the standard you require. Some customers like their cleaner to leave a note saying what they need or have run out of and they simply add it to their regular supermarket shopping. We do this because:

- * It is much more economic. Companies that bring their own cleaning materials have to charge twice as much, due to the running of a car and its associated costs such as parking and the time lost through taking the materials to and from your home. Also cleaners with driving licenses are in shorter supply and so they are much more demanding, this of course would mean much higher salaries which can lead to a disappointing cleaning experience at a much higher price.
- * Some houses the cleaners attend to are very dirty and you would never want the cleaning materials to be used in yours, our domestic cleaners have come across such problems like fleas, mites, extreme dirt and all sorts of other horrible things.
- * Customers like the comfort of buying the cleaning materials they like, so their home can smell and feel exactly how they want it to be.
